DAIRY
CONFERENCE

Gold Coast The opportunity of milk

12-14 February 2025

Gold Coast Convention
and Exhibition Centre

australiandairyconference.com.au

THE PROGRAM AT A GLANCE

[register now](#)

TUESDAY 11 FEBRUARY

ADC Pre Conference Tour – Southern Queensland
Overnight return to Gold Coast

WEDNESDAY 12 FEBRUARY

ADC Pre Conference Tour – Northern New South Wales
ADC First Timers & Young Farmers function – Eastern Terrace, GCCEC
ADC Welcome Function - Level 1 Gold Coast Convention & Exhibition Centre

THURSDAY 13 FEBRUARY

ADC Morning Milk Run – Kurrawa Beach, Broadbeach
ADC Conference Day 1 – Gold Coast Convention & Exhibition Centre
ADC Trade Exhibition – Hall 1, Gold Coast Convention & Exhibition Centre
ADC Gala Dinner - Arena, Gold Coast Convention & Exhibition Centre

FRIDAY 14 FEBRUARY

ADC Yoga on the beach – Kurrawa Beach, Broadbeach
ADC Conference Day 2 – Gold Coast Convention & Exhibition Centre
ADC Trade Exhibition – Hall 1, Gold Coast Convention & Exhibition Centre
ADC Happy Hour drinks – Southern Terrace, Gold Coast Convention & Exhibition Centre

Registrations and bookings must be made online at
www.australiandairyconference.com.au

From the Conference Chair

ADC 2025 Gold Coast brings much excitement and anticipation as the first time in event history Australia's premier event has hit the glitzy GC as a host destination.

ADC 2025 is all about opportunity with the core theme of our program 'The Opportunity of Milk'.

Opportunity exists on every front wherever you are placed across the dairy supply chain.

Opportunity for dairy farmers from farm hands, generational farmers, new entrants building capital, those seeking to step away from the farm and commercial entities looking to capitalise on investments.

Opportunity to explore and implement new ways of doing business to enhance on-farm efficiencies including ways to enhance and foster your workforce, operations and farm development.

Opportunity for the industry as a whole to innovate and drive constant change and improvements to ensure we deliver a quality product whilst also creating sustainable practices, operations and businesses.

Opportunity at ADC 2025 for the industry to come together to connect, network and embrace the achievements of the Australian dairy industry and collaboratively work together and generate discussions to drive our industry forward.

And an opportunity to explore a new region in southern Queensland also extending into New South Wales as part of the ADC Conference Tour.

I am incredibly proud to present the ADC 2025 Program of which the Programming Committee has worked hard to deliver topics and conversations that will enable delegates to realise, acknowledge and embrace the opportunities that lie before them.

I hope you embrace 'The Opportunity of Milk' and take the opportunity to join us on the Gold Coast in February 2025.

Look forward to seeing you there.

Monique Bryant
ADC Programming Chair 2025

Industry Partner – Dairy Australia

As the national peak industry body, Dairy Australia is the ADC Industry Partner playing a pivotal role in bringing you Australia's premier dairy event.

Partners in name and nature, Dairy Australia provides financial input and resources to help bring one of the most valued dairy forums to fruition each year. In a collaborative effort to showcase Australia's dairy industry and drive significant change along with challenging the status quo, we thank Dairy Australia for their ongoing valued support towards ADC.

Welcome Function Partner – Fonterra

Fonterra is the face to bring you back to ADC, as a regular supporter of the ADC Welcome Function for a long time now! The chatter, networking, introductions and vibe is always a welcome sight as delegates reconnect and meet new colleagues whilst they feast on dairy delicacies in a format that lends itself to good times and a great introduction to ADC every year. We thank Fonterra for their ongoing support to kick off festivities again in 2025!

Gala Dinner Partner – Rabobank

Synonymous with the signature social event at ADC, Rabobank have stamped themselves on the national dairy landscape as the major supporter and host of the ADC Gala Dinner. In a setting that delivers spectacular surprises and magnificent entertainment, we thank Rabobank for their continued contribution towards putting the spotlight on dairy, its achievements, challenges and global outlook. We look forward to what is in store for 2025 Gold Coast.

Special guests at ADC 2025

Kimberley Busteded ADC 2025 Master of Ceremonies

Kimberley is a versatile Australian media personality, presenter, and MC, with 16 years of experience hosting Channel 7 programs like Weekender and Creek to Coast. Currently, she stars on The Great Outdoors. A sought-after host, Kimberley has led events such as the Queensland Tourism Awards and Beef Australia, working with top brands like Lexus of Brisbane, MLA, and Lion Australia. Her warmth and adaptability shine across diverse industries. Off-screen, Kimberley and her husband manage cattle properties in Somerset, blending her media expertise with a deep connection to agriculture. Kimberley will bring her own dynamic style, perfectly aligning with the ADC's name and values, ensuring an unforgettable conference experience that raises the bar once again!

John Schumann Australian singer-songwriter

Experience an unforgettable evening at the ADC Gala Dinner hosted by Rabobank with legendary Australian singer-songwriter John Schumann. Known for his profound storytelling, John will deliver a moving oration followed by a live performance of his iconic anthem, 'I Was Only 19'. This powerful moment will celebrate resilience, community, and the human spirit, leaving a lasting impression on all who attend. With its emotional depth and timeless message, John's performance will be a true highlight of the night, creating a memorable and inspiring experience for everyone at the event. Don't miss this extraordinary showcase of talent and storytelling.

Henriette Guldager ARLA's Dairy Farmer Support Officer, Denmark

Opportunity and change across the globe, we welcome Henriette Guldager to ADC 2025 joining us to share the journey of farmers in Denmark. With ambitious targets by ALRA Foods' dairy producers to reduce carbon emissions by 30% by 2030 and achieve net zero by 2050, Henriette will share insight behind the vision, the innovation, the opportunity and the determination of farmers to reach this target. This is a story of collaboration, innovation, and seizing opportunities to build a more sustainable and prosperous future for dairy.

ADC TOUR

Explore the dairy regions of Southern Queensland and Northern New South Wales with the 2025 ADC Tour operating the two days leading into Conference thanks to tour sponsors MaxCare and Terragen.

ADC is operating the tour as two day tours returning to the Gold Coast overnight, meaning you can create your GC home base for the week and tour and make the most of ADC 2025.

Day 1 Tour Tuesday 11 February

Southern Queensland region > Gatton Research Facility & Toowoomba Feedlot

Overnight Gold Coast

Day 2 Tour Wednesday 12 February

Northern Rivers region > Paul & Sharon Weir, dairy farm Tuncester NSW & 'Plantation Lorna', Dorey Family Macadamia nut farm, Knockrow, NSW.

A popular pre-Conference opportunity to get on farm and check out different enterprises, models and operations in the subtropical part of the country.

Limited places available.

Tour pick up and drop off point will be the Gold Coast Convention and Exhibition Centre. Accommodation is not included and is at own arrangement.

THE PROGRAM

Welcome Events – Wednesday 12 February

5.30pm

ADC First Timers Function: A special meet and greet exclusively for first-timers before the official welcome. This casual social gathering is designed to introduce you to others, share insider tips, and give you a rundown of ADC's key players. In short, we'll make sure 'newbie' delegates are ready to network with confidence and fully enjoy the main event! Brought to you by Lely.

6.30pm

ADC Welcome Function sponsored by Fonterra: An exciting lead-in event that brings a fresh twist this year, with a special introduction of all speakers and program committee members. Known for its high energy and lively atmosphere, this event will be full of dairy farmers and industry supporters from across the country, eager to reconnect setting the perfect tone to introduce ADC 2025.

Day 1 – Thursday 13 February

Session 1 – Farming in Australia – the Land of opportunity.

5.30am

Start the day fresh with the **ADC Morning Milk Run** sponsored by the Bega Group on the beautiful beaches of the Gold Coast as an invigorating way to kick off conference proceedings & connect with fellow delegates.

8.20am

Introducing MC extraordinaire **Kimberley Busted** to ADC 2025! Kimberley brings 16 years of experience as an Australian media personality, hosting popular programs like Weekender, Creek to Coast, and The Great Outdoors. Off-screen, Kimberley and her husband manage cattle properties in Somerset, blending her media expertise with a genuine connection to agriculture. With her dynamic style and alignment with ADC's values we welcome Kimberley to ADC for the first time!

8.30am

Welcome to ADC 2025: Programming Committee Chair and northern Victoria dairy farmer **Monique Bryant** will encourage delegates to explore opportunities and get out of their comfort zone in this empowering and progressive forum.

8.45am

Seizing the opportunities for industry: Paul Roderick, Chair Dairy Australia & ADC Board grew up in farming, following his parents' example of community involvement and saying "yes" to opportunities. This shaped his path as a leader. He believes leadership isn't about titles but about embracing opportunities, learning, and sharing with others. It is rooted in encouragement and influence.

Reflecting on his own doubts, Paul acknowledges the key figures who saw his potential and helped him find the courage to lead. Authentic leadership, he says, comes from seizing the chances we're given. As we gather in Queensland, Paul will share his insights on leadership and challenge us to reflect on our own stories and the opportunities we can embrace.

Paul Roderick
Chair Dairy Australia &
ADC Board Director

9.00am

Opportunities in the Lucky Country: Australia is often labelled as the lucky country, yet are we standing at the crossroads of tradition versus opportunity. **Nathan Scott** of Achieve Ag Solutions will address the importance of collective leadership and a chance to push the industry toward excellence, providing opportunities for those who truly care about and seek this country's 'luck'. He'll question how can we avoid highly predictable regrets as farmers, while inspiring a new model where both experienced and driven individuals can sustain farming legacies, allowing current owners to enjoy life beyond the farm.

Nathan Scott
Achieve Ag Solutions

9.30am

Success from opportunity: Nathan will continue this theme of opportunity as he facilitates the inspiring journeys of dairy businesses who have found success and opportunity in Australia. Learn about the challenges they faced, the obstacles they overcame, and why they believe Australia has been the key to realising their dreams.

Nathan Scott
Achieve Ag Solutions

Clint Stephens, has illustrated both growth and prospect (against the norm). Despite a pull to 'farm down south' he's seen the Queensland dairy industry as an opportunity to grab a hold of.

Clint Stephens
Dairy farmer, QLD

Brian Corr, Gippsland has seized global opportunity to progress his dairy aspirations. Growing up in Ireland on a 150-acre mixed farm dairy, beef, sheep and poultry, and studying agriculture he spread his wings to dairy farming in New Zealand and the UK in management roles. In 2022, he and his partner purchased a 383-acred farm and expanded to 900 cows benefiting from land availability and favourable regulations in the region.

Brian Corr
Dairy farmer, VIC

10.15am Morning tea brought to you by Saputo Dairy Australia

Session 2 – Transitioning the Dairy Business

11.00am

Rethinking Farm Transition: We continue to hear stories on industry exits due to “no one to take on the farm” or “it’s impossible for me to get into farming” so what is the missing piece of the puzzle?

Nathan Scott believes nothing is missing and the people are right under our noses; its more of a mindset. Nathan will explore this further and be complemented with insights from three dairy industry businesses. They will share personal experiences of dairy transition - and not necessarily what they had hoped for. Nathan will challenge the audience that this is everyone’s responsibility to care about and change the mindset. He will push the audience as a call to action to transition the farm. Panel members Include:

Lachlan Fry Young WA Farmer – an inspiring young farmer who has attempted to enter into dairy but has failed to get asset owners to change their thinking to make way for a new entrant.

Don & Jen Stolp – Hailing from NZ, Don and Jen originally managed a Chris Proctor property in SA’s South East. Don and Jen reflect on their success story from Farm Managers transitioning through to share farmers.

David & Penny Conn bring a unique approach to share dairy farming that emphasises realistic goals and growth for ALL parties. They take immense satisfaction in seeing their sharefarmers thrive financially and grow wealth alongside them. This philosophy of sharing both opportunity and prosperity makes them exceptional models of balanced, equitable partnerships in dairy farming and inspiring voices on the power of collaboration and shared success in agriculture.

Official coffee sponsors of ADC

Session 3 – Your guide to industry insights and practical solutions for the future

2.20pm Led by **Greg Duncan**, Farm Performance Lead, Dairy Australia

2.30pm **How do I become the farmer that everyone wants to work for?** With a focus towards workforce attraction, retention and development.

Rebecca Fing founder of House Paddock Training and Consulting, brings 20 years of experience helping farms create safer, more productive, and people-focused workplaces. At ADC, she'll deliver a 10-minute session sharing her Top Tips to Becoming an Employer of Choice. Drawing from work with over 600 farms, Rebecca offers actionable strategies to improve safety, HR practices, and workplace culture. A follow-up video will provide deeper insights for building thriving, people-focused businesses. Don't miss this essential session for creating a workplace where great people want to stay.

Rebecca Fing
House Paddock
Training

2.40pm **Carbon confusion to clarity:** We keep hearing about Carbon but where do I start my learning or journey? What is a baseline, how is it measured and why should we know this. Climate change Professor **Richard Eckard** will give us the facts.

Richard Eckard
University of
Melbourne

2.50pm **Farm Safety Simplified:** We all want to explore how to simplify farm safety and make it a practical part of daily operations. A leader from a recognised farming business will share why culture is the key to effective safety practices and highlight the tools they use to embed safety seamlessly on-farm. This session is perfect for those looking to improve safety outcomes while building a strong, people-focused culture.

Dairy farmer TBA

3.00pm **Strategies for Surplus: Andy Hancock** presents examples of effective surplus calf management, showcasing the strategies and tactics that led to success. He'll explore the approaches that drove these outcomes and link them to the broader industry goals. This session will provide inspiration for addressing the issue of surplus calves for individual businesses at an industry level.

Andy Hancock
Dairy Australia

3.10pm **What do I do every day to look after me and my family's mental health:** Nuffield Scholar, Mental Health Counsellor and Dairy Farmer **Sarah Crosthwaite** will answer how mentally fit farmers equals a healthy dairy industry.

Sarah Crosthwaite
Nuffield Scholar,
Mental Health
Counsellor and Dairy
Farmer

3.20pm Afternoon tea brought to you by Fonterra Suppliers Council

Session 4 – Dairy Innovators

4.00pm **ADC Innovator Award:** sponsored by Gardiner Foundation, an evolution of the former ADC Young Dairy Scientist Award, opens the door to a whole new world of opportunities. Now embracing a wider spectrum beyond pure science, this award invites innovative dairy ideas from brilliant minds across all ages and stages of their careers. Whether seasoned professionals or just starting out, the five finalists and their ideas will be a delight with the aim to inspire delegates. This is their chance to showcase research-backed or science-based ideas to the entire Australian dairy industry, capturing the very best talent and pushing the boundaries of innovation..

5.00pm **Day one close**

6.30pm **ADC Gala Dinner sponsored by Rabobank**

Day 2 – Friday 14 February

Session 5 – From Farm to Front Page

8.30am **Welcome to Day Two** MC Kimberley Busteed

8.45am **What 30 years of journalism has taught me.**
Leigh Sales, ABC Reporter and Author, brings insights from 30 years of interviewing some of the world's most prominent figures to explore how media shapes the stories we see and hear. She'll delve into the challenges of navigating public narratives, offering a deeper understanding of how the media operates and its impact. With her wealth of experience, Leigh will share thought-provoking perspectives on communication, resilience, and building meaningful connections with audiences

Leigh Sales
ABC Reporter and Author

9.30am **Dairy issues spotlight** With her expert interview skills, **Leigh Sales** will ignite a powerful panel discussion on the biggest issues in dairy—those that could make front-page news. Joined by industry leaders, they'll uncover potential challenges that could shake the industry and reveal bold strategies to navigate and overcome them for continued success.

Jo Coombes
Department of Primary Industries & Regional Development NSW

Ashlee Gardiner
Dairy Australia

Mark Billing
Dairy farmer, VIC

Panellists Include:

Jo Coombes, Chief Veterinary Officer, Department of Primary Industries & Regional Development NSW

Ashlee Gardiner, Stakeholder Engagement & Issues Manager, Dairy Australia

Mark Billing, Dairy farmer & President, Dairy Farmers Victoria

Official media partners of ADC

Session 6 – Are we really open to Innovation?

11.10am

Embracing net zero: Four years ago, ARLA Foods' dairy producers set an ambitious goal: to reduce carbon emissions by 30% by 2030 and achieve net zero by 2050.

Today, this vision is becoming reality through the innovation and determination of farmers across Denmark.

Henriette Guldager, ARLA's Dairy Farmer Support Officer, will share the inspiring journey of how these farmers are embracing change and transforming the future of dairy.

Rather than being told what to do, ARLA farmers have discovered new opportunities through programs like FarmAhead, which tracks carbon footprints and identifies key areas for improvement, such as feed efficiency and land use. With support from advisors and incentives that reward sustainable practices, these farmers are not only meeting environmental goals but also enhancing profitability.

Henriette will bring real-life examples of farmers who have adopted groundbreaking technologies, partnered with researchers, and overcome challenges. Their story is one of collaboration, innovation, and seizing opportunities to build a more sustainable and prosperous future for dairy.

Henriette Guldager
ARLA's Dairy Farmer Support Officer,
Denmark

11.40am

Are we innovative enough and are we adopting it? **Nico Lyons**, Head of Science, DairyNZ will deliver a dynamic, presentation that paints a big-picture view of innovation in dairy, emphasising why it's critical for the industry's future. He'll explore the challenges posed by the flat productivity curve, highlighting the urgent need for transformative change. Nico will wrap up with actionable take-home messages, discussing what producers must do to drive innovation, the importance of building a supportive team, and how they can influence the future of innovative advancements for sustained success.

Nico Lyons
Head of Science,
DairyNZ

12.05pm

Early innovation & adoption Facilitated by **John Penry**, Nico will be joined by a top New Zealand Farmer to showcase and discuss real-world examples of how innovation has reshaped their operations and why it's so highly valued by industry leaders. This panel will demonstrate the impact of early innovation and adoption.

John Penry
Principal Scientist,
Dairy Australia

MUELLER

Beat the heat at ADC 2025 as we keep you watered and hydrated thanks to the team at Westfalia Warragul

12.25pm

Collaboration & innovation: Oli Madget is passionate about connecting tech professionals with farmers to tackle industry challenges. He'll showcase how cross-industry collaboration drives innovation, sharing examples where tech experts addressed sustainability, energy efficiency, and automation. Oli will encourage delegates to embrace these "outsider" viewpoints and seek partnerships with experts in technology to overcome on-farm challenges and drive agriculture's future growth.

Oli Madget
Vice President of
Farmlab and Founder
of SA AgriTech Meetup

1.00pm Lunch brought to you by Lactalis Australia

Session 7 – Opportunity in the sunshine state

2.10pm

Get ready for an exhilarating journey through the heart of Queensland as Session 7 celebrates the innovation, resilience, and ingenuity that defines the state. Through captivating storytelling and proven examples, this session will push you to think outside the box and explore bold new opportunities.

Discover how collaboration and creative thinking can lead to extraordinary outcomes, leaving you inspired to seize fresh possibilities and reimagine what's possible.

This dynamic session will spark ideas, fuel connections, and celebrate the spirit of Queensland in a way that stays with you long after the conference.

3.15pm Conference close

LALLEMAND

LALLEMAND ANIMAL NUTRITION

3.30pm ADC Happy Hour brought to you by Lallemand Animal Nutrition

MORNING MILK RUN

At ADC 2025 we are launching the inaugural ADC Morning Milk Run!!

Those keen for an early morning start can join fellow farmers for a 3km run (or walk if you prefer) along the famous Gold Coast stretch of beach – and you never know who you may meet along the way!!

Kicking off at 5.30am for early bird dairy farmers looking to start their day the right way with a healthy start with the sand beneath your toes or runners!

ADC Morning Milk Run is free and brought to you by the Bega Group. Just tick the box and you are in!!

YOGA ON THE BEACH

For a calm and gentle start to your Friday, line up next to your dairy farm buddy to limber up, stretch those joints and take in the serenity of early morning Gold Coast.

Even use ADC yoga as a chance to clear your head from the Gala Dinner the night before followed by a dip in the Pacific!! Whatever your preference, combine mindfulness and movement to create a memorable ADC 2025 Gold Coast journey.

THE PRESENTERS

Kimberley Busted

Channel 7 presenter, professional MC and farm manager

Kimberley Busted, is a versatile Australian media personality, presenter, and MC, with 16 years of experience hosting Channel 7 programs like *Weekender* and *Creek to Coast*. Currently, she stars on *The Great Outdoors*. A sought-after host, Kimberley has led events such as the Queensland Tourism Awards and Beef Australia, working with top brands like Lexus of Brisbane, MLA, and Lion Australia. Her warmth and adaptability shine across diverse industries. Off-screen, Kimberley and her husband manage cattle properties in Somerset, blending her media expertise with a deep connection to agriculture. Kimberley will bring her own dynamic style, perfectly aligning with the ADC's name and values, ensuring an unforgettable conference experience that raises the bar once again!

Paul Roderick

Chair Dairy Australia, ADC Board & dairy farmer, QLD

Paul Roderick, a fifth-generation dairy farmer from Harrisville in Queensland's Scenic Rim, is set to become Chair Elect of Dairy Australia. With 30 years of hands-on farming experience and a lifetime of commitment to the dairy industry, Paul has been instrumental in shaping both his family business and the broader agricultural community.

At the helm of Roderick's Dairy, Paul and his wife Linda manage a 600-acre operation that milks 400 Friesian cows, producing over three million litres of milk annually. The farm combines a Partial Mixed Ration (PMR) system with advanced irrigation technologies, emphasizing innovation, sustainability, and strategic reinvestment.

Paul's impact extends far beyond the farm gate.

His leadership roles include Chair of Subtropical Dairy, where he was pivotal in establishing the Young Dairy Network (YDN) Queensland. He also served 11 years as a Director of Premium Milk Ltd, negotiating on behalf of Queensland dairy farmers with Lactalis. Currently a member of the Australian Dairy Conference Board and an EastAUSmilk District Councillor, Paul is deeply involved in the future of dairy. His extensive experience in advocacy, research, development, and extension has positioned him as a respected voice in the industry.

Nathan Scott

Achieve Ag Solutions

Nathan has been involved in Agriculture all his life. From milking cows as a kid through to an extensive career in prime lamb, merino wool and beef production, he has a passion for improving the profitability, productivity, and overall performance of agricultural businesses. His approach is based upon a unique blend of science, humour and inspiration to challenge traditional thinking. Nathan provides advice to individual clients, works with a number of producer groups, is a keynote speaker, guest lecturer and is involved within various industry projects. He is based in Inverleigh, Victoria.

Clint Stephens

Dairy farmer QLD

Clint Stephens is a first-generation dairy farmer who started his business from scratch on leased farms in Southeast Queensland in 2008, and now milks 550 cows across two sites. As a young farmer he was told it couldn't be done, "unless you inherit a property, the cost of dairy ownership is simply out of reach". He and wife, Joanna, have shown what looking for opportunities and the power of goals can achieve. They have increased their milking herd year-on-year for more than a decade and now

operate both leased and owned milking platforms. Clint holds a Bachelor of Agribusiness from the University of Queensland and worked full-time in Rural & Commercial banking until CGS Farms reached some key milestones of farm ownership and profitability. His secret to defying the odds in the Queensland dairy industry is a positive mindset and a long-range strategy. He learnt quickly not to let the harsh realities of farming define the business in the short term. From humble beginnings, Clint is now focused on systemising both dairies and attracting a talented team to secure CGS Farms ongoing success.

Brian Corr
Dairy farmer, VIC

Brian grew up on a 150-acre mixed farm in Ireland, managing dairy, beef, sheep, and poultry. After earning a Diploma in Agriculture with experience in New Zealand, he managed a 350-cow UK dairy farm before returning to Ireland to help with the family's expanding poultry operation. Seeking broader opportunities, he moved to Australia at 26, working in broadacre cropping and eventually settling in West Gippsland, Victoria.

In 2022, Brian and his partner Myrid purchased a 383-acre farm, starting with 270 cows and quickly expanding their operation. By the next season, the couple will have expanded their operation to manage 900 cows across owned and share-farmed properties, capitalising on Gippsland's favourable climate, abundant land, and streamlined regulations. Their focus on scalable growth and sustainable investments has driven rapid success, showcasing the opportunities in Australian agriculture.

Lachlan Fry
Dairy farmer, WA

Lachlan alongside his family own and operate Katandra Park Holsteins and Jerseys, located at Brunswick Junction, in the South West corner of Western Australia. The herd is a 50-50 spilt of Holsteins and Jerseys milking registered 140 cows. Lachlan and family regularly exhibit at their local shows in WA with great success over the years. Lachlan has been heavily involved in the success of Western Australia's annual youth cattle camp, holding various committee positions over the past 15 years. Lachlan is also the current Chair of the WA Region of Holstein Australia. Lachlan has had the honour of judging multiple breeds in every state in Australia, which has included International Dairy Week, Royal Shows, State Shows, Youth Shows and On Farm Challenges. Lachlan's most recent appointment included judging the 2024 Holstein Victorian Winter Fair and will judge the Holsteins at New Zealand Dairy Event in 2025. Lachlan looks forward to the opportunity to share his dairy journey.

Don & Jen Stolp
Dairy farmers, SA

Don and Jen Stolp have carved a remarkable path in the dairy industry, bridging their New Zealand heritage with their life and business in Australia. Born and raised on a dairy farm in Ashburton, New Zealand, Don discovered his love for farming and machinery at a young age, working side-by-side with his father and grandfather and embraced full-time work on the family farm. Jen joined the farming world in 2006, coming from a non-farming background but quickly developing a deep respect and enthusiasm for calf-rearing. Under the guidance of Don's mother, she honed her skills and embraced the farming lifestyle. In 2009, they moved to Australia, driven by the desire to explore new opportunities in agriculture. Their journey included stints in sheep and crop farming, dairy heifer rearing, and even cattle truck driving, but

dairy farming ultimately called them back. They accepted a management role on a dairy farm in Kongorong, South Australia, where they excelled. After two years, they were offered a share-farming partnership. By 2017, they became 50% partners in Moana Dairies, and in 2020, they took full ownership. Now, with almost 15 years in Australia, 8 years at their share-farming position, and two children, Don and Jen have built a sustainable business that embodies their values and dedication to dairy farming. Their journey from New Zealand to Australia reflects a commitment to growth, resilience, and community within the dairy industry.

David & Penny Conn
Dairy farmers, VIC

David and Penny Conn are lifelong farmers, with David dedicating his entire career to dairy farming and Penny joining him in the industry 32 years ago. Over the years, they have significantly grown their operations, managing both dairy and beef enterprises across three regions in Victoria and Tasmania.

Their success is driven by a clear goal: to ethically and sustainably double their net worth every 5–7 years while fostering wealth creation opportunities for their team. David and Penny prioritise simplicity in their systems, embracing the “Keep It Simple, Stupid” (KISS) principle to ensure efficiency and ease of operation. Until recently, they were hands-on in managing their beef enterprise but have since appointed a manager, allowing them to focus on the strategic side of their business. They now concentrate on planning and supporting their team where needed, ensuring continued growth and a positive work environment for all involved. David and Penny are passionate about creating opportunities for their team to share in the wealth and success of their farming ventures, making them respected leaders in their field.

Claire Booth
C.O Booth Law & Advisory

Claire is a lawyer and farmer near Dubbo, NSW. In 2012, Claire and her husband Brendan started their farm business when both 28 years of age. BoothAg now produces irrigated crops and run a complimentary breeding and trading livestock operation. Prior to moving to Dubbo, Claire worked in large-scale agribusiness and the not-for-profit sector relating to children’s disabilities. Clients seek out Claire for her advice in relation to converting family farms into family corporates, and succession planning. Recently Claire has been approached to build syndicates for family farmers looking to purchase large scale agricultural assets. Claire is a 2017 Nuffield Scholar, who investigated if there was a link between financial literacy, profitability, and debt confidence, in relation to farm succession. As a side hustle in 2024 Claire created a café and art gallery ‘The Buckenbah Collective Project’ enables Claire to look at how a bank views farm equity – as part of an experiment to extract wealth from the farm balance sheet, to invest in ‘off-farm’ projects such as commercial, industrial, and retail property development and investment - hoped to be a case study for other families wanting to create “farm” and “off-farm” wealth portfolios. On a personal level, Brendan and Claire are parents to two young children (Lach 8 & Lucy 4) and are belatedly learning the art of slowing down, river-side picnics and building cubbies in the backyard.

Greg Duncan
Agribusiness Program Lead, Dairy Australia

Greg was raised on a sheep; beef & cropping property Nth NSW and now lives with his family near Huskisson in the Shoalhaven region of NSW. He started his career in dairy herd management in the Riverina then moved into Regional Extension at Dairy NSW looking after Sydney to Bega and across to Wagga Wagga, while also leading the Young Dairy Network across the state for 7 years. In the

last 4 years he's taken on the Agribusiness Program Lead at Dairy Australia which sees him working across all dairying regions assisting in delivering research, development, extension, & education programs that focus on improving farm profitability and sustainability. He's a keen diver, fisherman, wannabe triathlete and wrangler of 3 teenage children in his spare time.

Rebecca Fing

House Paddock Training

Rebecca Fing of House Paddock Training and Consulting has been helping farming businesses think strategically and provide a safer, more productive work environment for 20 years. Based in Goondiwindi, Rebecca provides Business Strategy, WHS and HR consulting services to farmers and small business. Having been on over 600 farms across six states, Rebecca has seen it done well (and not so well!) and loves sharing what she has seen and learnt along the way. Bec runs programs to help farmers and small businesses improve business strategy, WHS and HR through workshops, industry programs and online courses and is focused on practical, real solutions to everyday problems. Whether it is the big picture planning or the more detailed side of the business, Bec takes a no frills, practical approach from the ground up. "Process and adoption over paperwork" and "engagement from the outset" are two mantras Bec subscribes to when helping businesses, particularly with WHS and HR. Formal qualifications as well as an active and established relationship with the relevant regulatory bodies for WHS and HR ensure that the advice Bec provides, while practical, is well founded and credible. Shes also a huge advocate for the people in Dairy site which is a win / win. She also is part of her own family farm within the region so can "walk the talk".

Richard Eckard

University of Melbourne & Director Primary Industries Climate Change Challenges Centre

Richard is Professor of Carbon Farming at the University of Melbourne and science leader in the Net Zero Agriculture Cooperative Research Centre His research focuses on carbon farming and accounting towards carbon neutral agriculture, managing extreme climate events and options for agriculture to respond to a changing climate. Richard is a science advisor to the Australian, New Zealand, UK and EU governments, the International Livestock Research Institute and the UN Food and Agriculture Organization on climate change adaptation, mitigation and policy development in agriculture. Richard was recently named on the Reuters list of the world's 1,000 most influential climate scientists and was appointed in 2021 as a Fellow of the Australian Academy of Technological Sciences and Engineering. Richard developed the first greenhouse gas accounting tools, for all sectors of agriculture in Australia, that now forms an agreed national standard for agriculture.

Dr Andy Hancock

Sustainable Animal Care Manager, Dairy Australia

BSc, BVBiol/BVSc (Hons I), MVS/MVSc, MANZCVS (Vet. Epi.), Grad Cert BA. Andy is a dairy veterinarian with experience in clinical practice, academia, industry and government. Andy commenced working at Dairy Australia in February this year, in the position of Sustainable Animal Care Manager, where he is tasked with managing the dairy industry's commitments and targets under the Animal Care Commitment of the Australian Dairy Sustainability Framework. Andy came to Dairy Australia from Agriculture Victoria where he was the Principal Veterinary Officer (Cattle), supporting the Chief Veterinary Officer through the provision of technical, policy and strategic advice. Prior to this, Andy worked with Zoetis International, overseeing projects to identify, develop and demonstrate value propositions for Zoetis' global ruminant health portfolio

Sarah Crosthwaite
Nuffield Scholar & Open Road Counselling

Sarah Crosthwaite is a 2023 Nuffield Scholar who recently completed a global study on enhancing mental health and wellbeing in farming communities. An Accredited Mental Health Social Worker, Sarah founded Open Road Counselling, a specialised telehealth service designed to reach and support farmers, their families, and farm workers with compassionate, tailored mental health care, no matter their location. She also serves on the advisory board for the National Centre for Farmer Health, where she brings a vital farmer perspective to advancing mental health initiatives in agriculture. In addition to her work in mental health, Sarah is actively involved in the daily operations of her family's dairy farm in Northeast Victoria, which she runs with her husband, Stuart. With experience across various aspects of the business, Sarah now manages the farm's administrative functions while continuing hands-on work during busy seasons like calving. Combining her farming background with mental health expertise, Sarah is dedicated to supporting the wellbeing of rural communities.

Leigh Sales
Journalist & author

Leigh Sales AM is one of Australia's most recognised and respected journalists.

For almost twelve years, she anchored the ABC's flagship evening current affairs program, 7.30, as well as being the face of major news coverage for the network, including federal elections and budget nights. She has been a foreign correspondent based in Washington DC, covered various rounds including national security and politics, and worked for TV, radio, print and digital. She is now the presenter of the ABC's beloved Australian Story program. She is the author of four books: Detainee 002: The Case of David Hicks (2007), On Doubt (2009), Well Hello

(2021) and the national bestseller Any Ordinary Day (2018). She co-hosts a wildly popular podcast called Chat 10, Looks 3 with her friend Annabel Crabb. It attracts hundreds of thousands of downloads each month, performs sell-out live shows around Australia and covers subjects ranging from arts and culture to friendship and grief. Leigh Sales has been recognised with many honours and awards, including three Walkley awards for journalism and an Order of Australia for her public service. She has also been awarded an honorary doctorate from Edith Cowan University. She has two sons and studies the cello in her spare time.

Ashlee Gardiner
Stakeholder Engagement and Issues Manager,
Dairy Australia

Ashlee brings a unique blend of firsthand farming experience and professional expertise to the Australian dairy industry. Growing up on a dairy farm, she developed a deep appreciation for the sector, which she has channelled into a career spanning over a decade in agricultural policy, issues management, and stakeholder engagement. In her role at Dairy Australia, Ashlee leads the industry's issues management function, including biosecurity threats like Foot-and-Mouth Disease (FMD) and Highly Pathogenic Avian Influenza (HPAI), while fostering strong relationships with government and industry stakeholders. Her leadership during significant industry events, including managing disaster relief efforts, highlights her dedication to supporting Australian dairy farmers. A graduate in Agricultural Science with further studies in ruminant nutrition and agribusiness, Ashlee combines technical expertise with strategic vision, making her a trusted voice on issues shaping the future of dairy. As a panellist in "From Farm to Front Page," she will share strategies for tackling the dairy industry's most pressing issues and driving resilience for the future.

Mark Billing
Dairy farmer, VIC

Mark operates a dryland pasture-based dairy farm in partnership with his wife, Sam, situated 5 km west of Colac in southwest Victoria. They focus on milking registered Holsteins and embody the values of a fourth-generation dairy farming family. Mark is passionate about the future of the dairy industry and dedicated to advocating for farmers. As the President of Dairy Farmers Victoria, he actively represents the interests of dairy farmers, ensuring their voices are heard in industry discussions. Mark is involved in initiatives that promote sustainable farming practices and improve livelihoods.

Henriette Guldager
Senior Manager Agriculture, Sustainability and Commercialization, ALRA

Proud to be working with some of the world's most innovative and sustainable dairy farmers. Having an educational background in farming I enjoy supporting the transformation of dairy to make us fit for the future. Part of my role is to create the data foundation with all our farmer owners stand on and facilitate the knowledge sharing which is key for us to develop as a whole.

Dr Nico Lyons
Head of Science, DairyNZ

Since 2023, Nicolas has led DairyNZ's science team, driving innovation through technology, strategic science direction, and impactful partnerships. With expertise in robotic milking, farm systems, grazing, and cow behaviour, he has built and led multidisciplinary teams to tackle sector challenges and deliver large-scale programs.

A forward-thinker with a big-picture mindset, Nicolas connects people and ideas to create innovative solutions. Originally from Argentina, he holds a Bachelor of Agricultural Science from the University of Buenos Aires and a PhD in Veterinary Science from the University of Sydney. "Supporting our world-class team to innovate and make a difference for farmers is a true privilege," he says.

Dr John Penry
Principal Scientist, Dairy Australia

BVSc MVS PhD MANZCVS (ruminant nutrition) Dip HRM (dairy)

After graduating from University of Melbourne Veterinary Science in 1990, John worked in a mixed dairy vet practice at Camperdown in SW Victoria until 2013. From the late 1990's, after completing a Masters program in Dairy Medicine and Management, he spent a large portion of each year involved with industry funded Australian national animal health and feedbase programs including Countdown and InCalf. John completed a PhD program in 2016 at the University of Wisconsin-Madison conducting milk harvesting research with Professor Doug Reinemann. In addition, he had previously completed membership examinations with the Australian and NZ College of Veterinary Scientists in ruminant nutrition. Following a research and advisory role at Anexa/Cognosco in NZ, he joined Dairy Australia in 2019 and is the Principal Scientist for the organisation. Through his various industry roles, John has presented at conferences and workshops in twelve countries, primarily on dairy animal health and milk harvesting topics. His family remain based in Camperdown, South West Vic.

Oli Madget

Vice President Farmlab & Founder SA AgriTech Meetup

Oli is VP of Special Projects at FarmLab, and has been working with Meat & Livestock Australia, AgriFutures and the Clean Energy Regulator for the past 2 years to scale soil carbon baselining and decarbonize supply chains.

Oli has been a grape grower in McLaren Vale since 2015, and founded the SA AgriTech Meetup, bringing together a community of more than 2,000 developers, farmers, and entrepreneurs interested in the agricultural technology space to develop novel solutions in AgTech.

Dr Jo Coombe

NSW Chief Veterinary Officer and Director, Animal Biosecurity at NSW DPI

Jo gained her Veterinary Science degree and PhD from the University of Melbourne. She started her career as a dairy vet in Timboon, SW Victoria. Jo held roles within Dairy Australia as Manager, animal health, welfare and fertility and Policy Lead. She has consulted to various universities and industries and was the Secretariat (and inaugural Chair) of the Animal Industries' Antimicrobial Stewardship R,D & E Strategy (AIAS). She is also an invited member of the Australian Strategic and Technical Advisory Group on antimicrobial resistance (ASTAG). In Jo's spare time she races triathlons all over the world.
